18.00 hours	End of retreat	

TO DO:

- 1) Circulate PhD materials not later than November 10th so that everyone has sufficient time to read them all in advance of the retreat (PhD handout 2-5 pgs for Wucong; ~15-20 pages of the material to be discussed for Ingo, Stefan, Anna, Franziska, Gurur, and Julia – please include a short abstract outlining your research question & the part of your thesis your circulated material belongs to)
- 2) Prepare a power point presentation on your PhD project
 - a. 10-15 minutes for Wucong (first ideas and preliminary outline of your thesis, open questions etc.)
 - b. ~20-30 minutes for Ingo, Stefan, Anna, Franziska, Gurur, and Julia (please include one slide with your RQ and why it is important and a slide outlining your research design so that we can all situate the part of your thesis that you present in the context of your work)

Please note: The purpose of the presentations is to discuss (and collectively resolve) the difficulties you are encountering at whatever stage you currently are and to explore options forward. The idea is NOT to present work that you already presented previously/at other occasions. Also, this is NOT a show-off event :-) but a collective exercise in the art of constructive discussions.

- 3) Email your current CVs to all by November 10th
- 4) For those, who have a paper for “hands on publishing”, please circulate the paper not later than November 10th. Papers should be sent to Anna Starkmann (anna.starkmann@politik.uni-freiburg.de), editor of the IR-journal “Revise and Resubmit”, who will send them to the reviewers.

Discussants: Please read the materials ahead of time and limit your comments to not more than 10 minutes!
