Course registration I

- In order to participate in seminars and lectures, you have to register for your courses online on HISinOne.
- This is only possible once you have arrived in Freiburg and matriculated **via regular mail** at the International Admissions and Services office. Please enclose a sufficiently stamped return envelope with the documents (**until 22nd October 2020**).
- Further details in regard to the matriculation process here: https://www.studium.uni-freiburg.de/en/student-services/matriculation?set_language=en
- After completing this, you will receive your personal login data for your online university account.
- You can then simply register for courses over the online course catalogue on HISinOne.

- **But what if you don't have your account yet or didn't get a place in the Seminar you wanted to join?**
- Please just go to the first (online) lesson and tell the teacher that you would like to join and that you couldn't book a place (yet) because you are an Erasmus student.
- Usually they will allow you to take part, and you can register afterwards.

Important notes:

- Registration for **lecture courses** should always be possible during the registration period. For **seminar courses**, it might be the case that online registration is not possible because the course is already fully booked.
- You should **only register for a course, if you really want to attend**. Otherwise, seats are blocked for other students. If you don't want to attend a course you registered for, please unsubscribe again.
- In any case, you should **attend the first session** of the course and talk to the lecturer about your attendance and the requirements to obtain your desired number of ECTS-points.
- Like regular students, **you have to register for your exams**. We will keep you informed via email about the dates.
